There are large trees on the boundary line.

Pedestrian access to the rear yards and buildings is via a gate at the back corner of the side entrance. Vehicular access can be taken further down the lane.

## **Rear Yard**

Wrapped around the house are a range of buildings, being a farm cottage and range of farm buildings.

Due to condition and over-growth, these have been measured externally. We are informed that a scheme has previously been given permission for 5 dwellings and associated garages (Ap 2007/1838) gave 8028 sq ft of developable area.

Since then, the buildings have deteriorated, although most are in reasonable repair, one has no roof. Anyone viewing the buildings does so at their own risk. Please note most of the doors are locked shut.

The measurements taken are external gross measurements.

The Barn is a large 2 storey brick built barn.

There is a small brick building with asbestos roof adjoining the main house, suitable for conversion to garages or stores.

There is an old Nissan Hut and Pole barn to the rear of the site and these are in poor order and have not been measured
